

## **Netværksmøde hos Holmager Økologi d. 22. august 2024 kl. 10-13.00**

Mødet foregår på engelsk og med deltagelse af Stacey Hendriks, Dairy NZ

### **Agenda**

We will be shown around by owner Lene Fløe. It is a large organic farm (at least for Danish standards) with around 750 cows and approx. 35 foster cows at any given time.

Then a talk about Lene and Torbens plans of expanding their barns with the purpose to build specifically for the foster cows and calves.

Sandwiches and presentation from Stacey about her NZ work with pasture and dairy systems.

Last a discussion about cow-calf-systems in DK and pasture and calf rearing systems in general.
